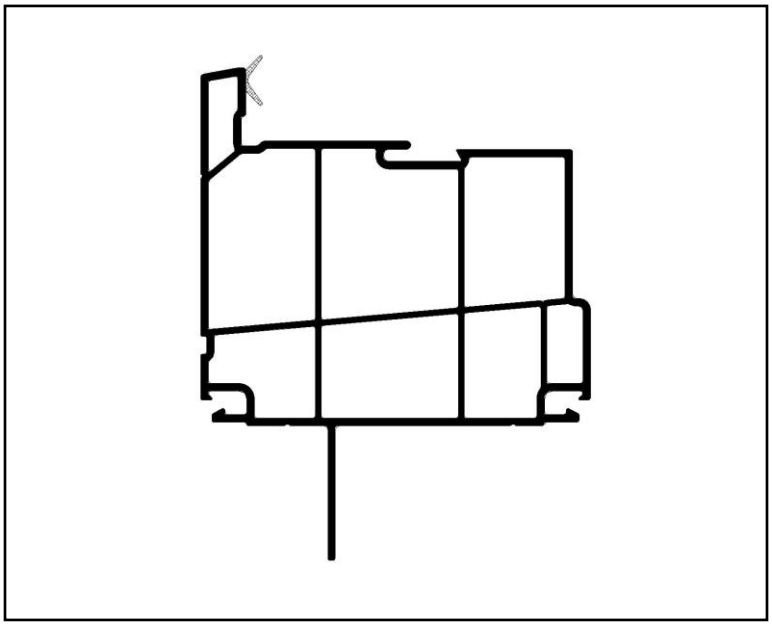
CROSS-SECTIONAL
DETAILS **Rigid Colour:** WH-115
Flex Colour: BLACK
Capstock Colour: N/A



- ☐ Approved
- ☑ Approved with Comments
- ☐ Reject (Please Comment)
- ☐ Re-sample (Please Comment)

Comments: The die drawing is approved with critical dimensions identified on Vision drawing. Weight control limits apply. Nail fin to be updated to slotted hole. The physical sample is approved with the dimensions received on the upper limits of wall thicknesses. It is further understood that as the die weras out the wall thickness will drift to thicker end of tolerance.The negative impact of thinner wall and overstretching during extrusion on thermal deformation of profiles is acknowledged by Vision. Thinner walls also compromise the structural attachment of Centra product.Normal distribution around the target thk is acceptable, but consistently thinner profile will not be acceptable.

Vision Profile:

QC Manager: Tri Thai
Plant Manager: Pino Consolmagno

Notes:

(1) Please sign this form and return to your Customer Service Representative. Keep a copy for your records.
(2) Please sign a one foot sample. Return one (1) to your Customer Service Rep. and retain one (1) for your records.
(3) "Approved" indicated that the samples meet all the specifications required for your proper manufacturing and fabrication purposes. An "Approved" Status indicates Customer consent for Vision Profile to anodize and harden the tooling for production.
(4) "Approved with Comments" indicates that the sample does not meet all the specifications required for your proper manufacturing purposes, however, the issues can be addressed before production begins, without the need for re-sampling. Please consult with Vision Profile for any technical support you may need to address these issues.
(5) If samples are rejected, please explain in the comments section.
(6) If re-sampling is required, please explain in the comments section.
